Re: Notice of File Closure for Small Mining Project, Emery Industrial Resources, Clay King South Mine, S/015/089, Emery County, Utah

Dear Mr. Powell:

This letter is to notify you that the Division file, S/015/089, for the Clay King South small mining project, located in Emery County, Utah, will now be closed.

On July 26, 2002, the Division received a request from you to inspect the site and close the file, and on August 15, 2002, we were notified by the School and Institutional Trust Lands Administration (SITLA) that the lease had expired. On November 19, 2002, I visited the area, found no disturbance, and was notified by the land owner, Viril Winder, that no mining had taken place.

You are hereby released by the Division from further mining or reclamation responsibilities at this site. If you wish to conduct any future mining related activity in this area, you will need to submit a new notice to the appropriate agency(ies), pay the Division permit fee, and receive written approval(s), prior to creating any disturbance.

If you have any questions or concerns regarding this action, please contact me at (801) 538-5261. Thank you for your time and consideration.

Sincerely,

Paul B. Baker  
Senior Reclamation Biologist
